WHAT IS INCLUDED IN 2ND GRADE MAD MINUTES:

2nd Grade Mad Minutes are intended to review and help your student become proficient at typical 2nd grade math. Math includes up to triple digit addition and subtractions including carrying numbers. In the 2nd half of the sheets simple multiplication and division are also included with multiplication by 1 to 5s included. It is recommended that you practice skip counting by 2s, 3s, 4s, and 5s, to help students solve these equations quickly.

Each sheets also includes a word problem – as it is essential that students have regular practice with “real world” math problems.

There are also 2 random math worksheets included. These are to help kids review mental math, writing numbers from words to numbers, math using money, additional word problems, greater than and less than, as well as addition and subtraction equations written horizontally.

Note: The worksheets get progressively harder from A to M. *Worksheet (Worksheet A contains addition and subtraction without carrying over numbers between columns.)*

HOW TO USE MAD MINUTES:

Give your student a Mad Minutes Worksheet face down. Set your timer and when you say “GO” they flip over the Mad Minutes Worksheet and begin solving the math problems. *Remind them that the goal is just as much accuracy as it is speed.*

Set your timer for 3-5 minutes. When you first present the worksheets I suggest giving them 5 minutes. This will ensure *most* kids will be able to complete *most* if not all of the worksheet. When your student is becoming quicker with his Math and is ready for more of a challenge you can lower your timer to 3 or 4 minutes.

Remember when you finish to go over the **correct answers**. *(There are answer keys provided at the end of the worksheets).* This is the one time I allow my student to use a red pen or crayon and they can grade their own work. Again, they are only trying to improve and better *themselves*.

WHY MAD MINUTES?

Mad Minutes helps students review and become proficient in math. It will help them gain speed and accuracy with completing math problems which will help them in current and future math problems.

Name: _____

Date: _____

2nd Grade Mad Minutes - M

Arrange the numbers in order from smallest to largest:

263, 157, 832 157, 263, 832

12, 31, 11 11, 12, 31

1:11, 5:30, 2:23 1:11, 2:23, 5:30

\$4.55, \$6.95, \$5.45 \$4.55, \$5.45, \$6.95

1 pint, 1 cup, 1 quart 1 cup, 1 pint, 1 quart

Write the numbers:

Two hundred three = 203

Nine hundred twelve = 912

Seventy three = 73

Four hundred ninety three = 493

Solve:

$$200 + \underline{70} = 270$$

$$452 - \underline{50} = 402$$

$$632 + \underline{200} = 832$$

$$555 - \underline{75} = 480$$

$$10 \text{ more than } 111? \underline{121}$$

$$100 \text{ less than } 325? \underline{225}$$

$$10 \text{ less than } 592? \underline{582}$$

$$50 \text{ more than } 321? \underline{371}$$

$$5 \text{ minutes past } 7 \text{ o'clock? } \underline{7:05}$$

$$15 \text{ minutes to } 10 \text{ o'clock? } \underline{9:45}$$

$$45 \text{ minutes after } 3 \text{ o'clock? } \underline{3:45}$$

Solve:

$$\$4.95 + \$2 = \underline{\$6.95}$$

$$\$2.75 + \$4 = \underline{\$6.75}$$

$$\$5.60 + \$4.20 = \underline{\$9.80}$$

$$\$3.25 + \$4.55 = \underline{\$7.80}$$

$$\$5.95 + \$1.60 = \underline{\$7.55}$$

$$\$4.15 + \$0.95 = \underline{\$5.10}$$

$$\$10 - 40\text{¢} = \underline{\$9.60}$$

$$\$1 - 90\text{¢} = \underline{\$0.10}$$

$$\$4.10 - 45\text{¢} = \underline{\$3.65}$$

$$90\text{¢} - 55\text{¢} = \underline{\$0.35}$$
